with strands in Accounting or Leadership and Management

Gain the skills to help a business achieve its operational objectives by applying knowledge and skills in an ethical manner in a bi- and multi-cultural environment; gain specialised knowledge and skills for application in operational roles depending on the strand selected.

On successful completion of this qualification you will be eligible to move into the second year of the Bachelor of Applied Management (Leadership and Management strand) or Bachelor of Accounting (Accounting strand), depending on the strand you complete.

For domestic students there are full and part-time study options. An excellent option if working or those with a busy schedule to undertake one or two papers at a time. This is a great opportunity for you to upskill while in employment. There are also evening papers available.

You will learn how to:

- apply knowledge of the principles and practices of operations, accounting, sales/marketing, HR, and risk management, to support the operational efficiency and effectiveness of the entity.
- contribute in operational contexts to innovation and organisational change within a business entity.
- develop and maintain operational business relationships with stakeholders for efficient and effective performance of the entity.
- research and communicate information for efficient and effective performance of the entity.
- apply problem-solving and decision-making in operational contexts for efficient and effective performance of the entity.
- manage own and others' learning and performance within an operational context for efficient and effective performance of the entity.
- apply professional and ethical behaviour, in a socially and culturally appropriate manner.
- analyse the impact of internal and external

environments on entities.

- analyse how the origin and nature of the bi-cultural partnership (as embedded in the Treaty of Waitangi) can be applied to business activities and relationships.
